

# End of year procedures for Vb-Vtech 1.19 and V-Tech Platinum (VTP) Software.

**DO A REGULAR BACKUP BEFORE STARTING THIS PROCEDURE. Label it Year-End and DO NOT REUSE IT. Put it in a safe place and save it. USB and flash drives are your best choice.**

The end of year needs to be performed on December 31st, **after** the last client has been invoiced, or on January 1st or 2nd of the New Year **before** any clients are invoiced out. This can be done from any machine, but no one else can be in the V-Tech software while this is being done.

Suggested reports to print for the end of year. *At the point you are DONE FOR THE YEAR (between last invoice of 2021 and 1st invoice of 2022):*

From the **Receivables Menu > Receivables Report.**

The receivable report **cannot be backdated** (the software only knows the receivables as of the current date) so it is recommended to print this report at the end of the year so the clinic will have the receivable figures for the end of the year. Before printing the receivable report, click the **Age Accounts** button on the **Receivables Menu**. Enter the current date and say yes to verify balances to ensure the receivables report is correct.

From the **Reports > Administrative Reports Menu:**

Run the **Inventory Cost** Report. This report lists the in stock amounts for all inventory items, the clinic's cost and retail charge of all inventory items on the clinic's shelves. Like the receivables report, this report cannot be backdated, it only knows the current in stock amounts, and the current cost and retail charges.

The **Current Year Sales** figure on the **Client** screen needs to be reset to 0 (zero) so it can reflect 2022 amounts.

In Vb-Vtech go to the **Archiving Menu:**

Click on **Reset Client Sales Totals.**

It will ask you "**Are You Sure That You Want To Reset Client Year To Date Sales Counters?**". Click **OK**. This will zero out the **Current Year Sales** field

In V-Tech Platinum:

Go to the **Reports Menu** and then choose **user reports**

Choose the "**Rebuild Client Sales Totals**" Report

Answer "Yes" to view to Screen

Choose **Option 4** and click "Yes"

Enter "2022" in "Enter Current Year to Rebuild" Box and Click "Yes" This may take 5-15 minutes to run

If this report does not exist on your system:

Go to the "System Config" Menu then choose "Update Electronically" Click on "Connect" and then choose "Report Update"

A list of available reports appears on the left side

Highlight "RebuildClientSalesTotals.rpx" from the list

Click on "Download Selections."

If you have any questions or problems, please call 2i Nova technical support at (800) 858-0462. You are now ready for the New Year. Happy New Years!
